We have received a request to place the EPA RCRA ID Number in an inactive status. We are enclosing a report from our database which shows that this has been done.

Facilities at which no regulated activities are currently being performed may request that their RCRA ID Number be placed in an inactive status. If, in the future, you find that you will once again engage in RCRA-regulated activity, before you may again use this number on manifests, service agreements, and other record keeping documents, you must notify the Environmental Protection Agency (EPA) in writing so that the RCRA ID Number may be reactivated.

If you have any questions, please call Mr. James Terry, working under a grant at EPA, at (913) 551-7958. Your cooperation is appreciated.
